

Welcome to the ISC Juggling Club!

We're committed to helping you develop your juggling skills at home using the TopYa! Soccer app. Developing a strong "first touch" and learning different types of juggling is foundational to the game of soccer...all you need is a smartphone or tablet to get started!

1. Download the TopYa Soccer app on your preferred device
2. Create a new Player account for your Select Player, and create a Parent Account for yourself
(NOTE: Any player under the age of 13 is required to have an associated parent account - parents can follow the same signup process.)
3. Go to <https://app.topya.com/contests/isc-juggling-club> (this is your very own Juggling Club landing page)
4. Click on the green button labeled "**Join the Club!**"
5. Select the player you wish to join to ISC's Juggling Club through TopYa. Click the green join button again to join as a parent or coach who has a registered account in TopYa.
6. Once you have the app and are logged into your Player account, go into the Skills Academy to find the Juggling Club skills to work on. Start with **Juggling Club Levels 1-10 - Sweden** and you will progress from there. *NOTE: Because every video you submit is reviewed by a real Virtual Coach, there is a delay between when you submit a skill video and when it is approved with your personalized feedback. So make sure your push notifications are turned on so we can notify you when your videos are approved. Once you've completed all skill levels for a particular country, you will receive a push notification to start you on your journey in the next country. We're looking forward to seeing what you've got!*

We're looking forward to seeing what you've got! If you have any technical questions or issues, please reach out to support@topya.com.
